Commissioner for Patents

Sir:

In response to the Office Action mailed November 8, 2007, the Applicant elects Group II, with claims 6-14 readable thereon, and Species II, with claims 6-14 readable thereon, with traverse.

The Applicant's traversal is based on that Groups I and II are in the same classification, and Groups III and IV are in the same classification. Accordingly, the Examiner has not explained why the inventions must be restricted on the basis of (a) separate classification, (b) separate status in the art, or (c) a different field of search.

Respectfully submitted,

STAAS & HALSEY LLP
